SEATING

GRAFTON

Grafton Seating

Elegant, durable & versatile

The generous perforations of Grafton's distinctive injection-moulded backrest provide better ventilation and flexibility. This unique feature was created to offer the comfort of a mesh backed chair without compromising on durability. The rolled edges of the backrest are mirrored on the seat shell to create a waterfall edge. The chair's configuration options support agile learning and maintain a consistent design aesthetic across a campus.

Indoor Advantage Gold - Furniture
This product is certified to Indoor Advantage Gold - Furniture, making it suitable for many building rating systems, including LEED v4, BREEAM, & WELL Building.

Quick Ship:
Chairs in stock, available for delivery within 1-2 weeks to Mainland UK locations. Upholstery will require additional 1-2 weeks, subject to fabric availability. Please confirm with the KI team for lead times.

OTHER INFORMATION

Care & Maintenance Instructions

Proper care and careful use are the best methods of maintaining the appearance and finish of any product.

Polypropylene shells
For normal cleaning of poly shells, use a soft cloth with mild soap or detergent and lukewarm water. Do not use solvents, citrus/orange-based cleaners, or heavy-duty kitchen cleaners. Remove chewing gum and similar stubborn spots with cigarette lighter fluid. Wipe dry immediately. A general, non-abrasive all-purpose cleaner is ideal for light cleaning and to restore lustre to smooth surfaces. Its anti-static properties help repel dust and dirt. High-quality wax restores lustre and protects the finish.

Powdercoated metal frames
Remove chewing gum and similar stubborn spots with cigarette lighter fluid. Wipe dry immediately. It is recommended that frames be protected from water, rain, ice, snow and salt.

If gloss finish use a silicon-based spray polish to clean. For thin surface scratches wipe with thinners (pour onto a soft cloth not directly on the surface) or spray with clear lacquer. For deep scratches sand with emery paper, clean and repaint with appropriate spray gloss/matt paint.

Note: Colour match is critical, spray onto white photocopy paper and check colour before spraying.

Laminate surfaces
Use an all-purpose cleaner to remove ink stains, crayon and water-based paint marks. Use thinners to remove oil-based paint stains (pour onto a soft cloth, not directly on the surface). For superficial surface scratches use linseed oil (not for deep scratches).

Note: Do not wipe any PVC edging with thinners, as this will damage it. Never use excessive water to clean work surfaces. Wetness or excessive moisture can cause laminate top table to well, warp or appear to grow in thickness.

Vinyl fabric
Use normal dishwashing liquid with warm water and a soft cloth. Dry with a clean soft cloth.

Polyester & wool fabric
Use dry carpet pellets or powder for wet stains, let dry and brush off or vacuum. Use a standard upholstery cleaner foam for dry stains, spray lightly over the stain and brush off after 5 minutes.

KI (UK) Ltd Rights & Warranties

15 year warranty, 5 year warranty on task base & gas column.
